ALABAMA IMPORTS 7,000,000 DOZEN EGGS PER YEAR. WHY NOT PRODUCE THEM?

F. W. GIST, the agricultural statistician of the State, has compiled figures to show that in 1923 the egg production of Alabama was seven million dozen less than consumption. He has a comparative table in the Alabama Market Journal, issued by the Agricultural Department, and the Montgomery Advertiser in a news story about this remarkable showing says:

A comparative table accompanying the article, showing the population of the State by counties, the number of dozen of eggs produced and the surplus or shortage of dozens for each county, indicates that, according to this comparison, Montgomery County experienced an egg shortage when compared to the consumption of eggs estimated, of 729,000 dozens. Mobile County's shortage was 1,250,000 dozens, and Jefferson County's was 4,300,000.

The Counties of DeKalb and Jackson tied in the production of eggs, each showing a production of 290,000 dozens in 1923, DeKalb having a surplus of 464,400 dozens and Jackson a surplus of 41,570 dozens.

It is a shame and a disgrace, first upon Jefferson County and then immediately surrounding this tremendous center in and about Birmingham, and secondly upon the state as a whole.

Somebody is producing these eggs, because there is no shortage in the markets. The News called attention Wednesday to the shipment to Birmingham from Tupelo, Miss., in one day of butter, 12,714 pounds, and 160 cases of eggs, or 57,600. A stream of eggs and poultry pours into this State from Georgia, Tennessee, Mississippi, Missouri and other places.

If these people can produce them at a profit, sell to dealers and cold storage concerns at a profit, and then ship them long distances, adding cold storage charges and freight, certainly eggs can be produced right here at the consuming point and sold at a greater profit, with the producer obtaining the benefit of those eliminations?

There has been some little interest in raising poultry and producing eggs here in Jefferson County recently, but it would seem there is a vast market not utilized by our people.

Birmingham sends away every year something over 3 millions of dollars for eggs; a larger amount for poultry, and a still larger amount for butter, milk and dairy products.

The opportunity is here. And the waste acres in a radius of fifty miles of Birmingham utter daily a reproach for such lack of enterprise, and such a continual drain upon us for necessities. That money goes from us, and builds nothing. It does not help to make a prosperous citizenry. It does not go into the common pool of wealth which forms the basis of credit, and enables us to make greater advances. It is lost money, which, if kept at home, would do incalculable good. And all on account of laziness, shiftlessness, lack of initiative and energy. What will every stir our people out of their lethargy.—Birmingham News.

Old Folks' Ailments

"I began taking Black-Draught over fifty years ago and my experience with it stretches over a good long time," says Mr. Joe A. Blake, a Civil War veteran and former Virginian, who is now a prominent citizen of Floyd, Texas. "It is the best laxative I know of for old people. I used to get bilious and I found that

Thedford's

BLACK-DRAUGHT

was the best and quickest relief I could get. Since I came to this country these bilious attacks every now and then—a man will get bilious anywhere, you know—and I find that a little Black-Draught after a few doses, in little or no time I'm all right again."

Thedford's Black-Draught is a purely vegetable liver medicine, used in America for over eighty years. It acts on the stomach, liver and bowels, is a gentle natural way of assisting digestion and relieving constipation. Sold everywhere.

## 7,000 ALABAMIANS WILL GET \$185,000

DIRECTORS ALA. POWER CO. DE CLARE 17TH QUARTERLY DIV.

IDEND—CHECKS WILL BE MAILED JULY FIRST.

Checks amounting to \$185,000 will be issued by over 7,000 Alabamians in every quarter of the State on July 1st, when the seventeenth quarterly dividend will be paid on Alabama Power company preferred stock, according to Thomas Bragg, manager of the company's investment department who stated that the board of directors declared the 17th consecutive dividend at their last meeting more than 10,000 Alabamians own Alabama Power company's securities of different kinds.

Mr. Bragg stated that customer ownership, the goal for which practically all utilities in the country are striving, is coming rapidly nearer for the Power company as a considerable percentage of all users of the company's power now own its preferred stock and this number is being augmented by lease and purchase.

In purchasing stock in the largest Alabama corporation, said Mr. Bragg, "our citizens are not only investing in the company but in their state as our growth has been and will continue to be parallel with that of Alabama."

Mr. Bragg presented interesting figures showing that the Alabama Power company, despite the fact that it began marketing its securities but a short time ago, is now leading all public utilities in the customer ownership field and that, since 1920, when the stock was first placed on the market, each year has witnessed the doubling of sales over the previous year. He considers this a remarkable tribute to the confidence held in the company by investors and the public, and to the usual advantages offered in the stock.

Little Miss Vera Sellers has been spending a few days with her cousin, Mrs. Frank Dunn, Mr. Roscoe Purswell from Daleville has come back to Goodman and wants to make this his home. His father and mother are both dead.

The singing at Mr. J. A. Ross's Saturday night was enjoyed by all present.

Slayer of Parents Sentenced for Life.

Clearwater, Fla., June 21.—Frank McDowell, youthful self confessed slayer of father, mother and two sisters, must serve the rest of his natural life in the Florida penitentiary at hard labor.

Declaring he is "nobody's fool," and expressing the belief that he will be pardoned within a few years, McDowell displayed not even the slightest sign of emotion when Judge M. A. McMullen pronounced sentence of life imprisonment upon him Saturday morning after the second trial of the young murderer had announced they found the young guilty of slaying his mother.

The young man may never face trial for the shooting to death of his father last winter and the burning of his two sisters alive in the home occupied by the McDowell family in Georgia just a year before the youth killed his parents while they slept in their new home, whence they had moved to forget, if possible, the tragic ending of the lives of the

two girls.

The jail authorities said said Saturday that Frank would be taken to the penitentiary at Raiford next Thursday to begin his sentence.

Prayer Service, Wednesday evening at 8:00 o'clock.

To the christian people of Elba We are glad to report that we are in the midst of a glorious revival at Center Hill, Fla.

The meetings are conducted by the Culpeppers. The Methodists, Baptists and Presbyterians are all working and cooperating.

Having understood that this party is to enter your town at an early date we are glad to introduce them in the name of the Lord.

The messages they have brought to our town in song and sermon have been characterized by intense earnestness and a burning zeal for the salvation of men, resulting in numbers being saved, among whom are some of the leading business men of our town.

We believe this party of God will prove a great blessing to your town, and therefore commend them to you, hoping that when the campaign has opened that all the people will cooperate, and that we may hear good reports of an old time, God honored, Spirit directing, Soul-saving revival.

Yours in His name,

Fount Smith, Pastor, Presbyterian Church.

Dr. H. S. Cherry, Deacon, Baptist Church.

W. T. Rencher, Pastor, M. E. Church.

To The People of Elba: We feel like we want to say a word about the Culpepper party, which consists of himself and wife, his son and his wife, for evangelical work among us. The consecrated women of this party illustrate the gospel their husbands preach, and bless the fields in which they labor, and the combination and ages are peculiarly fitting for the work of the evangelization of our times. We trust this will be a great revival with you.

Signed in behalf of the Churches of Monticello, Fla. J. K. Hutchings, Pastor, Baptist Church.

Robert Johnson, Rector, Episcopal Church.

F. R. Bridges, Pastor, M. E. Church.

Henry Holmes, Pastor, Presbyterian Church.

## New Jitney To Troy.

Beginning July 1st, I will operate between Elba and Troy a first class Bus Line, using latest Model Buick Car. I will carry the mail, having this contract and I have come here to make my home. I will appreciate your patronage on this line, and assure you of courteous treatment and good service. My Rates will be 5c per mile; round trip from Elba to Troy, \$3.00. I will however, have about two excursions per month and will advertise these days.

I have established this rate because it is a just, fair, live and let live price. I could only hope to go broke operating otherwise. I will be glad to receive your patronage, and assure you I will give service to the best of my ability.

These rates were adopted by me from the beginning, having figured closely on cost of trips, etc., and I make the price in order for it to be as reasonable as possible.

## Lighting Fires Gun;

Woman Is Wounded

Deland, Fla., June 21.—During an electrical storm Tuesday afternoon, lightning played some queer pranks here. It struck the home of Mrs. Mary Hanscomb, on South Amelia Avenue, and set it on fire. The bolt hit a post in front of the house, continued to a palm tree and then to a magnolia tree which was badly shattered, the bark being torn even to its roots. The bolt continued to the kitchen, demolishing a range and setting fire to the woodwork.

At DeLeon Springs, lightning struck a loaded gun, causing it to discharge, wounding Mrs. Jewel Moore in the foot. She was brought to Deland Memorial Hospital, where the shots were removed.

Now is a good time to avoid fake bolt weevil machines. A bulletin from Auburn says that no machine for catching weevils has been found equal to noising in economy and efficiency.

"To rid pigs of mange and lice use either crude oil, motor oil drained from the crank case of a car or creosote dip. The oil may be applied with a brush or stiff broom. If a large number of animals are to be treated it may be necessary to construct a dipping vat for this purpose."—Prof. J. C. Gaines, Auburn.

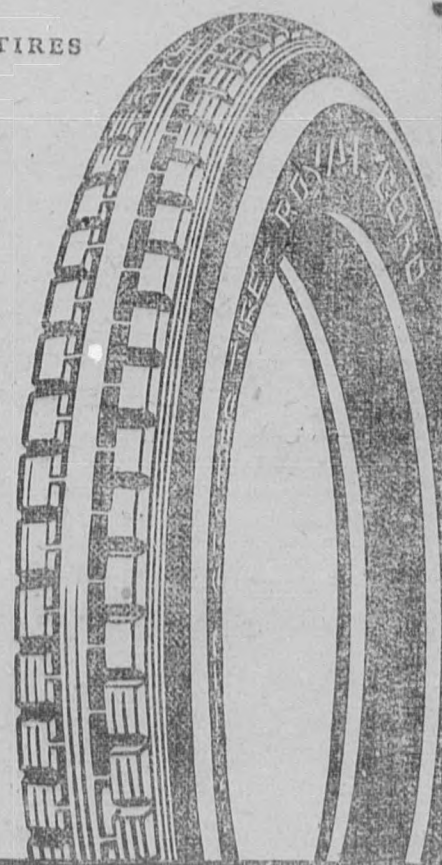

## U.S. Royal Cords

UNITED STATES TIRES ARE GOOD TIRES

HERE'S the standard of value in cord tire equipment—made in all high-pressure sizes from 30 x 3 1/2 inches up and in Balloon-Type for those who want low-pressure tires and don't want to change wheels and rims. Also U. S. Royal Cord Balloon Tires for 20, 21 and 22 inch rims.

All made of latex treated cords—a new and patented process of the United States Rubber Company—that adds great strength and wearing quality.

U. S. Tires are the only tires in the world made of cords solutioned in raw rubber latex
